Ready for whatever lies ahead.

You know better than anyone that every second of uptime means increased revenue, maximized efficiency, and new opportunities. That’s why you need a transport solutions partner that supports your business with innovative ideas to help you keep your trucks on the road and money in your pocket.
Our world-class dealer network means your trucks are never far from the quality care and maintenance you expect when you buy a Volvo truck. With more than 360 dealers and thousands of service locations across North America, Volvo Truck’s Uptime Services help you through every step of a service event, and make sure your trucks stay where they belong—on the road.

Repairs are done fast and accurately by highly trained Volvo specialists. Our parts expediting team locates the parts you need quickly—making sure they are there when you need them.

No matter the route, we’re there for your business. Get access to a range of benefits through your Volvo dealer including, online parts ordering, credit for parts purchasing everywhere within the Volvo dealer network, Volvo trained specialists, and Volvo genuine parts.
Volvo Certified Uptime Centers
Across North America, Volvo Truck dealers are redesigning service bays and adopting
standardized processes and workflows to speed repair time through faster diagnostics and more
efficient service. To be certified as a Volvo Uptime Center, dealers must implement numerous
modifications to their service processes, including the designation of uptime bays for repairs taking
less than four hours, as well as revised service workflows to speed repairs.

Uptime bays.
Designated for your shorter
diagnostics and repairs, Uptime
Bays prevent short jobs from
going caught behind long jobs.

Advanced bays.
Your truck will be routed to
an Advanced Bay when initial
assessment reveals that longer
diagnostics or repairs are
required.

Customer advantages.
EFFICIENT CHECK-IN that
provides immediate vehicle
information
FASTER DECISIONS for
your trucks, drivers, and loads
DRIVE-IN SERVICE, no
appointment necessary
INCREASED UPTIME for
your business

TWO LANES, ONE MISSION: IMPROVED UPTIME FOR YOUR BUSINESS.

- Uptime bays
- Advanced bays
- If initial diagnostic reveals repair > 4 hours

The Volvo Uptime Center.

The state-of-the-art Volvo Uptime Center offers around-the-clock assistance anywhere in the United States and Canada. Within minutes, your driver is connected to a member of Volvo Action Service, a team of highly trained uptime experts who can quickly manage service, schedule repairs, and tackle any other issue that happens on the road.

Real people. Real solutions. Real fast.
Support from the Uptime Center through Volvo Action Service is available at no charge for 2 years with every Volvo truck and offers access to these services and more.

Roadside assistance.
If your truck can’t make it to the repair facility, we’ll bring the help directly to your truck with 24-hour roadside assistance anywhere in the U.S. and Canada.

Load forwarding.
When an unplanned service event keeps your truck from making its delivery, our team will help find you one that can. We’ll help you coordinate rentals or arrange for the load to be delivered by another fleet.

Parts expediting.
Our team minimizes repair delays by locating the parts you need and making sure they are where you need them, when you need them.

Remote diagnostics.

Remote Diagnostics can help avoid unexpected downtime by monitoring your Volvo engine, I-Shift, and aftertreatment 24/7. Standard in every Volvo powered truck, Remote Diagnostics offers a range of unique benefits; including enhanced proactive diagnostics, detailed analysis of critical fault codes for repair planning, immediate communication if actions are required, and streamlined service procedures. It’s a powerful service that reduces average diagnostic times by 70% and average repair times by 22%.

With a dedicated team of professionals available around the clock at Volvo’s world-class Uptime Center in Greensboro, NC, Volvo goes beyond diagnostic technology to deliver actionable solutions.

How it works:
We focus on the top 50 powertrain service issues and categorize each event according to severity.

Yellow cases
are fault codes that do not interrupt truck operation and can be addressed at a later date. By identifying these faults and proactively making an appointment for repair, you can avoid a potential unplanned stop.

Red cases
are fault codes that disrupt truck operation, causing an engine de-rate or even a shutdown, and require immediate repair. Remote Diagnostics provides the technicians with critical information ahead of the truck’s arrival so they can get right to work fixing the issue instead of having to first diagnose the problem.

Volvo Geo-fencing keeps an eye on your fleet.
Geo-fencing establishes a virtual perimeter (using GPS coordinates) around each of Volvo’s North American dealer locations. Your trucks are identified each time they come in for service, allowing the team at the Volvo Uptime Center to better monitor your service.

ASIST
Service management platform.

Volvo’s service management platform, ASIST, is a simple, web-based tool that lets you monitor vehicle status, receive electronic estimates, approve repairs, issue purchase orders, and communicate directly with your dealer—regardless of your truck’s location. ASIST consolidates all maintenance events and communication in one place so you can avoid invoice and repair surprises. And for trucks with Remote Diagnostics, ASIST also provides seamless communication between the service manager, the truck, your dealer, and the team at the Volvo Uptime Center.

Manage assets with ease.
Access information on all your equipment and important contacts in a single place. Make notes on fleet processes and individual assets to guide the service process.

Streamline communication.
Never hear a busy signal again. The ASIST dashboard gives you access to every active service event with a click of a button, while customized service alerts keep you informed every step of the way, exactly the way you want.

Ensure accurate estimates.
Know exactly what you’re paying for. Online access to estimates lets you review, comment on, and approve all estimates before any work is performed. And with easy access to all maintenance documentation, you can always be sure the invoice matches your approved estimate.

Reduce costs and downtime.
Efficiency drives savings. ASIST services generate proven uptime by getting your trucks diagnosed, repaired, and back on the road faster.
