

Extended Life NF Premixed 50/50 Coolant

Volvo Genuine Coolant

Volvo Extended Life NF Premixed 50/50 Coolant is a nitrite-free coolant with organic additive technology (OAT) that provides improved protection of aluminum components.

Application:

NF 50/50 Coolant can be used in all Volvo trucks.

Key Benefits of NF 50/50 Coolant:

- Provides corrosion protection of all metal components, especially aluminum.
- Extended life capability with no need to use an extender or SCAs, which can result in reduced maintenance costs and downtime.
- Provides excellent protection against cavitation (pitting) on the cylinder liner.
