

VOLVO REMAN 7/8 ENGINES

Delivering premium reliability, durability and performance

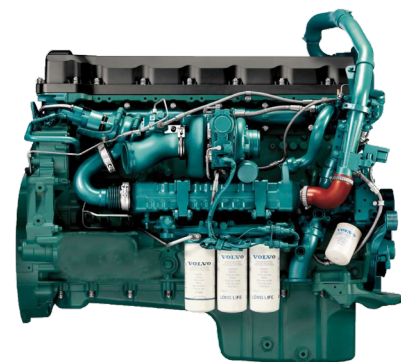

7/8 ENGINE FEATURES

- Completely disassembled and remanufactured by factory-trained technicians in a controlled factory environment
- Only Volvo Genuine components are used
- Dyno-tested and proven unit
- Average installation time savings is 1-3 days of uptime
- A 7/8 installation does not require a Volvo Master Technician
- The only components that need to be installed on a 7/8 engine are: alternator, starter, fan hub, and power steering pump
- Provides huge value in material and labor cost savings vs alternative engine repairs and replacements

7/8 ENGINE WARRANTY

- Standard 2 year / Unlimited mileage
- Available 3 year / 350,000 mile
 - Requires submission of Extended Overhaul Warranty Registration Form
 - No additional cost to receive the three-year warranty!
 - Covers parts and labor when installed by a Volvo dealer
