Exterior color options

PAINT SELECTOR

Volvo Trucks. Driving Progress

Details matter

You have a wide variety when it comes to your truck’s color and finish. Choose from one of our most popular solid, premium solid, metallic, or pearl options shown in this brochure, or work with your dealer to customize a color to your liking.

At Volvo Trucks, we take every step possible to deliver a premium finish that can last as long as the truck itself.

The color samples included in this document represent the most popular colors available from Volvo Trucks. Metallic and pearl effects are not represented in this document.

Dealers may request a paint sample spray out from the factory to receive a 3-inch by 5-inch physical sample of the actual paint color.

Custom colors and paint schemes that require new development are subject to a color development fee. Dealers must complete the Paint Request Form on TDP to request a sample of an existing color or to initiate the new paint formulation process.

New options for a new day

Volvo Trucks has introduced new paint colors to correspond with the launch of our all-new VNL and VNR lineups. Every new truck seen in promotional videos, advertising, social media, and sales materials features one of six new color options.

New VNL’s are presented in Desert Mirage (Core Trim Level), Prairie Grasslands (Edge), Skyline Steel (Edge Black), and Coastal Mist (Ultimate). New VNR’s are shown in Silver Metallic (Core) and Dark Quartz Grey Metallic (Edge).

DESCRIPTION	Prairie Grasslands
